Introducing PARASOL

PARASOL seeks to influence and advocate for social awareness of the sanctity of life through instruction, compassionate support, and community involvement. Our goal is to demonstrate in both word and deed that all human life has inherent worth regardless of age, ability, or circumstances. We share a deep and profound commitment to the sanctity of all human life. Human life is being devalued and discarded when people in vulnerable situations are not being supported to live, but facilitated to die.

Please join us

to understand the developing crisis of a death culture in Canada. Your first step to make a difference is to recognise the shocking truth about MAiD in our health care system.
